- Cisco Packet Tracer (VLAN/Subnetting)
- OWASP Top 10, Linux security basics

SOFT SKILLS

- Problem-solving & critical thinking
- Detail-oriented, security-minded
- Team collaboration
- Time management

INTERESTS

Cybersecurity research, penetration testing, full-stack development, DevSecOps, open-source tools

PROFESSIONAL SUMMARY

Cybersecurity graduate of the Federal University of Technology, Akure (FUTA) with hands-on experience in both cyber operations and full-stack web development. Cisco-certified in CyberOps and skilled in PHP, JavaScript, and HTML, with a track record of designing, building, and securing real-world web platforms for businesses, non-profits, and institutions. Known for blending security-first thinking with modern, user-focused web design.

INTERNSHIP EXPERIENCE

Cybersecurity & IT Intern

Qualitas Paints, Akure | Jan 2024 – Present

- Supported secure deployment of company websites and email systems
- Performed vulnerability assessments and patched known risks
- Collaborated on the Custom Paint Order project using PHP & JS

IT Support Intern

International Institute of Tropical Agriculture (IITA) | Jun 2025 – Oct 2025

- Assisted in network troubleshooting, configuration, and user support
- Maintained system documentation and user access logs
- Participated in cybersecurity awareness campaigns and routine audits

PROJECTS & PORTFOLIO

- **QPaints -** obadtech.freehosting.dev/QPaints/pages/index.php
  Full-stack paint company e-commerce website with product catalog and custom order integration.
- **CRM System -** obadtech.freehosting.dev/crm-system/
  Customer relationship management platform with client management, sales tracking, communication tools, and an admin dashboard.
- **Matrix Grillz -** obadtech.freehosting.dev/grillz-website/
  Interactive custom grillz design platform - users select tooth layouts, materials, and colors with dynamic visual previews.
- **O-Shield -** obadtech.freehosting.dev/o-shield/
  Incident reporting and response platform for logging, tracking, and managing the resolution of reported incidents.
- **Fingerprint Attendance System -** obadtech.freehosting.dev/fingerprint-system/
  Biometric examination attendance system using fingerprint verification to log and manage student attendance.
- **Missionary Church Website -** obadtech.freehosting.dev/church/
  Website for a missionary organization sharing gospel activities, events, and outreach information.

Additional work: Trackway Logistics, Scent of Joy, RoseBulge, Client Portfolio Website, Secure User Registration System, and Network Simulation (Cisco Packet Tracer) - available on the full portfolio above.
